FOREWORD

Authentic data about demography, Socio-economic Statistics, livelihood related sectors and geographical features is the base of an developmental plan or project formulation. An authentic and pure statistical database decides the strength of development and also course of socio-economic upliftment of society. The District Statistical Agency has brought out 21st edition of "District at a Glance" with baseline of 2014-15 which will be a guiding force for the development in district. It will be of immense help in effective decision making as well as implementation of policies on ground. Research work, social work and bureaucratic activism will also get a boost from the authentic database.

I compliment the District Statistics and Evaluation Officer and his entire team for commendable work. I also thank district and Sectoral officers of all the department as well as their field staff of timely providing the required data after thorough exercise at their level. Lastly, I hope that it will also serve as a great source of social education.
